

ELEVATORS DESIGNED TO EXCEED

Eclipse

The Eclipse™ residential elevator by Savaria Concord delivers exceptional performance while utilizing minimal space. Requiring no mechanical room and minimal overhead drive space, the Eclipse elevator easily fits into new or existing homes. Using a modular rail system, the Eclipse design installs quickly and seamlessly. In addition, the Eclipse' smooth arrival and departure system provides an exceedingly stable ride that ensures your comfort and peace of mind.

Savaria Concord is proud to offer the finest machine room less elevators solution on the market.

THE ECLIPSE RESIDENTIAL ELEVATOR... DESIGNED TO EXCEED

- ▶ At 1000 lb capacity, our robust design provides years of reliable service
- ▶ Our unique drive technology reduces energy consumption over traditional residential elevators
- ▶ The service panel can be conveniently located inside or outside the elevator shaft for ease of service and maintenance
- ▶ The structural design and wide stance of our modular rail system is the cornerstone for an exceedingly stable ride
- ▶ Up-to-date technology combined with reliable components deliver a home elevator that you can trust

CUSTOMIZING YOUR SOLUTION

Your home environment is a reflection of your personal style. Rest assured that with the Eclipse, you can customize your elevator in the same way you customized your home. From construction configuration to accessories, you can create the perfect solution suited to your practical needs and to your design sense.

Choose from a range of cab styles and sizes for both traditional, or modern homes and everything in between. Select your finishes to complement and complete your solution. You will be able to create your own personal elevator from our wide selection of options presented in this brochure.
